RE: SB 390 – Indian Education for All Funding

Please support SB 390 that provides for \$50.00 per student for Indian Education for All, for all schools in Montana. We need to continue providing adequate funding for our school in Montana.

\$20.40 per ANB is not sufficient to continue the good work that has just started in 2006-07.

Our schools need resource materials for instruction; teachers need training on how to work with their lessons to incorporate Indian Education for All. We must remember that we are catching up from the past 35 years of no funding.

OPI has developed some wonderful resources that are available to all teachers at no cost, but our schools will need additional support as they integrate their curriculum on Indian Education.

The Great Falls School District has developed a three level plan for the implementation of Indian Education for All:

- **Level 1: Awareness:** Participants learn the obligations of IEFA and what is meant by/history of Indian Education for All. They also receive a basic awareness of Montana Indian people, the Essential Understandings (the backbone of IEFA), and American Indian literature (historical and contemporary).
- **Level II Infusion:** Participants learn various infusion models and strategies through lesson planning, project development, and continued conversations regarding literature and other available resources.
- **Level III Sustainability:** Schools identify key personnel who work with coaches to continue ongoing lesson planning and implementation.

Schools need sustainable funding to implement quality Indian Education For All. We cannot go back, we must look ahead and provide resources for all students and their teachers in Montana to help fully implement Indian Education for All.

RE: SB 390 - Increase funding for Indian Education for All

We join the Montana Education Community (Superintendent OPI, Board of Public Education, Montana Quality Education Coalition, Montana Rural Education Association, MSA-MFT, Montana Association of School Business Officers, School Administrators of Montana and Montana School Board Association) to give our full support for SB 390 - Increase funding for Indian Education for All. SB 390 will increase the level of funding for schools from \$20.40 per ANB as proposed in the Governor's budget to \$50.00 per ANB.

The public education system of Montana provides the future leaders/employees to our tribes. The future economic stability of the reservations in Montana is interdependent with the knowledge of Montana Indian diversity, unique histories, cultural stories, and sovereignty.

The legislature should be aware of the following:

Montana Indians are full members of the "we" that you, our legislators represent.

The CSKT leadership (Tribal Council) value the education of all children about American Indians.

Not until 2005 did the state acknowledge and begin working on the American Indian Achievement Gap.

The "Montana Tracks Project" funded by CCSSO in 1988 was the first time the state even looked at its rosters to know the school age population percentage is 2 to 3 times that of the state American Indian population percentage.

Funding is critical because by funding we tell the world what is important.

The goal of Indian Education for All is Constitutional, Court directed, and good for all citizens.

Our schools have made great strides this current school year in beginning to incorporate lessons about Montana Indians and other Indians in their content areas with the funding provided in the 2005 Special Session of \$68.00 per student. We need to insure that these efforts continue and \$20.40 is too big a step backward and not sufficient to enable our schools to do what is necessary.

As administrators, teachers and staff of our schools, we want to do the best job possible but need professional development and adequate instructional resources for every classroom to provide quality instruction on Indian Education for All for ALL our students.

We are proud to be a part of this historical educational effort in our state. Please help by supporting SB 590.

Sincerely,

A handwritten signature in black ink, appearing to read "James H. Steele, Jr.". The signature is fluid and cursive, with "James H." on top and "Steele, Jr." below it.

House Education Committee
P.O. Box 201706
Helena, MT 59620-1706

Testimony in Support of SB 390 (Juneau/Bixby) – Increase Indian Education for All to \$50.00 per ANB.

My name is Everall Fox. I am the Coordinator of Indian Education for All for the Billings Public Schools School District 2. SD 2, the largest school district in the state, is home to 16,024 students, 1,157 classroom teachers and 59 administrators, in 29 schools in grades K-12.

The need for continued funding for Indian Education for All is important especially to a district as large as SD 2. Indian Education for All funding in the current biennium has allowed us to begin putting books and media resources in all the school libraries in the district. We are working with classroom teachers to identify other resource needs and are putting those into the District warehouse, so all teachers and schools can have access to them. These include classroom sets of books, DVD's, and wall maps.

Once in place, these resources will give teachers in SD 2 an opportunity to have materials available to them as they prepare lessons inclusive of Montana's Indian tribes. Further funding would allow us to expand our Professional Development training that will allow us to reach more teachers. We would like to bring presenters into schools and classrooms throughout the school year. Also, we have a training module that consists of six sessions that run two hours long each. In these sessions, teachers learn about the tribes in the area, including the Crow, Northern Cheyenne and Fort Belknap tribes. We have had two training modules that have reached 19% teachers in the District. Continued funding would allow us to expand our efforts to have two or more training modules. We would like to hire a Teacher on Special Assignment (TSA) as well to assist teachers directly in the classroom.

Continued funding would allow large schools such as the Billings School District to build a solid base of resources in school libraries and to reach a greater number of classroom teachers. Thank you for your consideration.

Friends of Indian Education for All
